

THASHMI FERNANDO

SOFTWARE DEVELOPER | DATA ANALYST

0768005649 | thashmiemaya@gmail.com | Negombo |  [Thashmi emaya](#) |  [Thashmi Fernando](#) |  [Thashmi Portfolio](#)

Motivated and detail-oriented undergraduate currently pursuing a BCS (Hons) in Data Science at ICBT Campus, with a Higher National Diploma in Computing and Software Engineering awarded by Cardiff Metropolitan University. Completed a Software Developer Internship at Ceylon Innovation, where I gained practical experience in software development, debugging, testing, and application support. Possess a strong foundation in programming, software engineering principles, and problem-solving, with excellent communication and teamwork skills. Passionate about learning new technologies and committed to delivering high-quality solutions while continuously developing my technical and professional expertise.

WORK EXPERIENCE

Software Developer Internship

Ceylon Innovation (Pvt) Ltd. | Sri Lanka | January 2026 - July 2026

BookHeaven - Online Bookstore Web Application (React, JavaScript, MongoDB)

- Designed and developed a modern online bookstore using React and JavaScript with MongoDB for database management.
- Implemented dynamic book listings, category filtering, search functionality, and responsive user interfaces to enhance the user experience.
- Integrated frontend components with MongoDB-based data storage to efficiently manage books, user information, and application data.

Murukku - E-Commerce Web Application (React, JavaScript, C#, SQL Server)

- Developed a responsive e-commerce web application for selling traditional murukku products using React and JavaScript.
- Built backend services with C# and integrated SQL Server to manage products, customer information, and order records efficiently.
- Implemented features including product browsing, shopping cart, order management, and a user-friendly interface to provide a smooth online shopping experience.

Grocery Shop Inventory Management System (React, ASP.NET Core Web API, SQL Server)

- Developed a full-stack inventory management system for a grocery shop using React, ASP.NET Core Web API, and SQL Server.
- Implemented modules for category, supplier, item, stock-in, and stock-out management with real-time stock balance tracking.
- Designed the application using Clean Architecture, Repository Pattern, and RESTful APIs to ensure scalability, maintainability, and efficient inventory operations.

EDUCATION

Higher Diploma in Computing and Software Engineering

International College of Business and Technology(ICBT)|(2024 - 2025)

Relavant Courses:

Buisness Information System, Computer Architecture, Fundamentals in Programming, System analysis and Design, Computer Networks, Database Design and Development, Object Oriented Programming, Professional Practice, Data Structure and algorithms , Mobile Application Development , Project Managment, Web Application Development, Buisness Analystic, Computing Project, Service oriented computing

ACADEMIC PROJECTS

LuxeVista Resort - Android Mobile Application :

Created an Android app where users can register, log in, book rooms, enter their personal details, and see a preview before confirming the booking. The app connects to a backend database to save all booking information.

Key Features:

- User login system built with Java and MySQL
- Room booking with calendar date selection
- Personal info page and booking preview screen
- Connected the app to PHP using HTTP POST requests
- Saved all booking details securely in MySQL

FitZone Membership and Query Management System - Web Application

Built a web-based system to manage member registrations, logins, and staff/admin responses. Includes dashboards for admins, staff, and members.

Key Features:

- Role-based login (Admin, Staff, Member)
- Members can submit queries; staff/admin can reply
- Replies stored in MySQL (separate tables for staff and admin)
- Secure login with hashed passwords
- CRUD operations and session-based authentication

CORESKILLS

Technical Skills : React.js, Node.js, ASP.NET Core Web API, Java, JavaScript, C#, PHP, SQL, MongoDB, MySQL, HTML, CSS.

Tools – Git & GitHub, Visual Studio Code, Android Studio, Postman, XAMPP, Microsoft Office, Excel, Power BI

Business Skills – Communication, Problem Solving, Team Collaboration, Analytical Thinking, Time Management, Adaptability, Attention to Detail.

LANGUAGES

English

Sinhala
